SAMSUNG DIGITall
everyone's invited™

Challenge the Limits of Business Performance

When You Need A "TRUE" Business Class MFP System, SAMSUNG Gives You What You Expect! An All Inclusive Product With No Hidden Costs.

■ BIG FEATURES, SMALL DESIGN

SAMSUNG specifically designed the Msys 5100P to allow the low-to-mid volume users to take advantage of features that were once only available on high-end products. In the past, when price was the biggest factor involved, the only options you had were to purchase an Inkjet or Thermal transfer product. But not today, the Msys 5100P is designed around a powerful 6 page per minute LASER engine.

■ PRODUCTIVITY AT ITS BEST

The Msys 5100P's fast 14.4 kbps modem allows you to transmit and receive documents as fast as 6 seconds per page. With Dual Access and Quick Scanning, your documents may literally fly through the 20 Page Automatic Document Feeder.

■ CONVENIENT, YET ECONOMICAL

The easier, the better is our philosophy at SAMSUNG. The Msys 5100P has many features that make it easy to operate. The 90 Station Auto-Dialer puts your most frequently needed fax telephone numbers at your fingertips. The Msys 5100P utilizes a convenient One-piece Toner Cartridge for easy and clean handling. By using a LASER based product versus an Inkjet or Thermal Transfer product, you can reduce your cost-per-copy by nearly 50%. The Msys 5100P is equipped with the ability to program or modify your 90 station auto-dialer via your PC. This feature makes changes a snap!

Inkjet	Laser
about 4-5 cents/page	about 2-3 cents/page

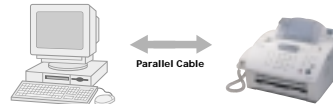

* Requires MS Windows

Msys 5100P

■ HOW MANY JOBS CAN YOU DO AT ONE TIME?

The Msys 5100P does far more than just send and receive fax documents. It can also print your files* from your PC at 6 pages per minute.

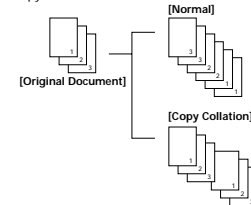

The Msys 5100P can also act as a low volume back up copier. It can produce up to 99 copies of an original document and if you want, reduce or enlarge them too. Last but not least, the Msys 5100P can scan your documents into your PC.

• Copy Zoom

• Copy Collation

■ SERVICE WITH A SMILE

How would you like to have your machine serviced without the disruption of having a service technician come out? With the Msys 5100P's Remote Diagnostic Control Function, your servicing agent can monitor the smooth operation of your machine without stepping a foot in your office.

When you need Quality, Performance, and Reliability in an office product, Samsung delivers it all to you in one machine. SAMSUNG is one of world's largest manufacturers of LASER engines. We have been manufacturing and marketing facsimile systems for over 15 years, just not under the SAMSUNG label. Our goal in life is to produce the highest quality products in the industry while keeping YOUR costs in mind. Let us prove to you, what other SAMSUNG customers already know. When you buy a SAMSUNG product, you are buying the very best!
